The Farmer's Omnibus. Two cows were killed in Connecticut last week, by one stroke of lightning.

ENGLAND is now paying for guano at the THE best time for making cuttings of current bushes is said to be early in the an tumn as they will form callons and frequently some roots before winter.

THERE is much wisdom in a few words spoken by an English farmer who advised "to feed land before it is hungry, to rest it before it is weary, and to weed it before itis foul."

THE dogs in Ireland, last year, 1864, destroyed 6174 sheep. Number of dogs convicted, 749. American dogs man-age better. But few of them are careless ugh to get caught.

LYMAN HARRINGTON of Beunington County, Vermount, writes to the Agricul-curist that he finds a great saving in an preparing his carret field that in harvesting the tops may be moved with a common be-

Some farmers recommend strewing corn in fields to prevent crows from pulling up that planted. The Germantona Telegraph says, it should be soaked, as the crow ne-ver eats dry corn. Give it to him dry; and he will bury it until it is softened.

Ir common salt and water be given to lambs that are poisoned by eating lambkill or laurel, it is said to neutralize the poison. It must be given within a few hours after they have eaten the plant.

"In FAITH, captain," said a son of Erin, as a ship was coming on the coast in inclement winter weather, "have ye an ould Farramer's Almente on board?" "No, I haven't." "Then, be jabers," replied pat, "we shall have to take the weather as it comes."

as it comes."

There is a young lady in Henry County, Missouri, not yet sweet sixteen, who is this year cultivating fifteen acres of corn. She does all the necessary work, including ploughing, and has taken this coarse to obtain money with which to educate herself.

A CLINTON COUNTY correspondent of the A CLINTON COUNTY correspondent of the Rural Was Yorker, has found that the wounds in apple trees trimmed when the tree begins to make wood, say the first of Jane, immediately commence to heal over while those trimmed earlier bleed more class, and have an unbesithy appearance.

Do NOT FEED.off pastures too closely. as the grass will be a long time starting again, especially in hot and dry weather, it is bad policy to keep so much stock that pastures are always very short. The leaves of grass perform the office of lungs. Therefore, let plants have top enough, that the breathing may not be obstructed.

A Farsen resultants have to enough, that the

A Faunch gentleman has patented a new invention for instantaneously releasing run-away horses from carriages. The driver, in case of sceldent, pulls a strap by which the trace buckles are leosened, and the horses run free with all the harness except the traces, which remain attached to the carriage.

SER that milk pails and pans are thor-oughly scalded; that those who milk have clean hands; that the milk is kept in a cool and airy place; that the cream is skimmed off at the right time; that churning is done often; that clean sait is used, and that the butter is well worked and each and butter is well worked and neatly packed in odorous vessels.

where hay or grain is put in stacks make a foundation at least half a foot from the ground. The best way to build a stack is, long and narrow, and to cover it with good boards, placed directly on the top, forming a roof like the covering of a lean-to, sloping only in one direction.

of a lean-to, sloping only in one direction.

The object of hoeing corn and root crops is not simple to keep down the weeds, and to draw a little fresh earth about the reots but it is primarily to stir and loosen the surface, that the air and raiss may have free acces to the soil in which the roots are. The frequent passage of a light cultivator or horse-hoe is of great benefit to crops on land suffering drouth.

Warrs the words. More resident in the control of the c

benefit to crops on land suffering drouth.

Writz the words, More needs, in large letters, where all bands will be sure to see them; and let every laborer understand, that if it is too wet to work at hay, grain or hoed crops, weeds may be mowed, close to the ground. In many pastures, large buil thistles cover nearly one half the ground. They should be mowed not only to allow the grass to grow, but to prevent the seed blowing out the country.

Tag Sunderland farmers report pleats.

the seed blowing out the country.

The Sunderland farmers report plenty of tobacco bayers and holders anxious to sell if they can get their price. The last year's crop is now searly all sold at remunerative prices, though it did not probably bring more than half the price that was anticipated when it was harvested. The number of scres set this season will be less than last. Onlons, which are just now staple crop, are not looking first rate but promises a fair crop.

The wheat harvest in the Tennesee valley

THE wheat harvest in the Tennesce valley has begun, and will be as abundant and as of fine a quality as has been known in

many years.

The harvest in Ohio is progressing. A Cincinnati letter says, the wheat crop is very large. Hav is now selling at \$12 to If ye now selfing at \$12 to 15 per ton. Osts are rapidly falling in in price; so is corn. The amount planted is large and growing finely. The grapes are rapidly disappearing between mildew and rot. Next year more than half the vineyards will be rooted out.

ANECDOTE OF CHOATE.-Rufus Choate, the great Boston lawyer, in an important Barton, chief mate of the clipper ship Challenge, on the stand, and badgered him so for about an hour that Dick got his salt water up, and hauted by wind to bring the keen Boston lawyer under his batteries.

At the beginning of his testimony Dick said that the night was as "dark as the devil, and raining like seven belis."

Suddenly Mr. Choate asked him:
"Was there a moon that night?"
"Yes, sir."
"Ah, yes! a moon."

"Ah, yes! a moon."

Member of BR. 2011NSYON.

Member of BOYAL College of Curgeons, London, graduate from so of the most eminent College and the graduate from so of the most eminent College. The Boyal College of Curgeons, London, graduate from so of the most eminent College. The British of the Boyal College of Curgeons, London, Parls, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asdeen, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended comotines with a derangement of the mind, were cured immediately.

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have lajured themselves by improper indulgence and solitary habits, which rain both body and mind, unfitting them for either business, study, society or marriage.

These are some of the sad and melanneholy ef-

are much to be dreaded—Loss of memory. Confesion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self-distrust, Love of Solides, Timidity, &c., are some of the evils produced.

Thousands of persons of all ares can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emacisted, having a singular appearance about the eyes, cough and symptoms of consumption.

YOUNG MEN

Who have injured themselves by a certain practice indulged in when alone—a habit frequently learned from evil companions, or at school, the effects of which are nightly felt, even when asleep, and if not cured renders marriage impossible, and dectroys both mind and body—should apply the prize of the parently december of

ORGANIC WEAKNESS
Immediately Carod and Full Vigor restored.
This Dreadful bisseane—which renders Life miserable and Marriage impossible—is the pensity
paid by the victims of improper indulgences.
Young persons are too apt to commit excesses from
not being aware of the dreadful consequences that
may ensue. Now, who that understands the
subject will pretend to denythat the pawer of
procreation is jost sooner by those falling into
improper habits than by the pradent. Besides
being deprived the piensures of bealthy offspring, the nicel serious and destructive symptoms to both body and mind srise. The system
becomes deranged, the Physical and Montal
Functions weakened; Loss of Procreative Power,
Norvous Irritability, Dyspepals, Palpitution of
the Heart, Indigestion, Constitutional Debility,
a Wasting of the Frame, Coughs, Consumption,
fic.

ting them for either business, study, society or marriage.

These are some of the sad and melancholy effects produced by early habits of youth, viz. Weakness of the Back and Limbs, Pains in the Heat, Dimness of Sight, Lass of Muscular Power, Palpitation of the Heart, Dysepata, Nerous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption.

MENTALIT,—The fearful effects on the mind are much to be dreaded—Loss of memory, Contains of the Digestian Consumption.

MENTALIT,—The fearful effects on the mind are much to be dreaded—Loss of memory, Contains of the Digestian Consumption.

Love of Solidas, Depression of Spirits, Sril Forebodings, Aversion to Society, Self-distrust, Love of Solidas, Timidity, &c., are some of the evils produced.

BONE TEETH,

DR. S. B. SIORSMOND,

269 Pannsylvania avanua, between Twelfth and

Thirteenth streets, Washington.

Dr. S. calls the attention of the public to the
following advantages of his improved system:
1st. The teeth of his manufacture will never
corrode nor change color by any acids, and are
three fourths lighter than any other.
2d. No teeth or roots need be extracted, as the
artificin ones can be inserted over them.
3d. The roots will be made inoffensive and
atthemption of the face,
the Nonporary teeth are needed, as permanual ones can be made immediately, thereby
preserving the natural expression of the face,
which, under the old system, is frequently disfigured.
Ath. This work has been fully tested for over
five years by many of the first chemists and
physicians of this and the old country.
Dr. S. has also prevented a white indestructible metal filling, with which the most sensitive
teeth can be filled without pain, and can builted
the pa perfect sound tooth on any side roots, which
will last through a lifetime.

TEETH EXTRACTED WITHOUT PAIN 1
